Subject: Walter Soboleff

Governor,

At tomorrow's AFN Roundtable, if you get a chance, you might want to take time out to say a few words to Walter Soboleff. He's the Tlingit elder who will turn 100 in November, who asked Fred Dyson to help create a Native Commission (He was once Talis Colberg's pastor).

He's not been in good health, but you never know. Sidney Huntington seems like he's had a second wind. So maybe Walter will make it to his birthday and beyond.

Senator Dyson had hoped you could meet with him to discuss his vision for a Native Commisison. Even if this isn't possible, tomorrow might be an opportunity to acknowledge it briefly.

He may leave after his opening prayer at 9:00am – so the two of you may not cross paths. If you do, I'm sure you'll enjoy his good energy – as he will yours!

Thanks.

Rhonda McBride
Rural Affairs Advisor

Web mail from: Mr. Rick Newlun

address: P.O. Box 291 Yakutat AK 99689

907-784-3241

MESSAGE:

Governor Palin,

I would like to start off by thanking you for all you have accomplished in your short time in office. As a life long republican you come as welcome change to a much maligned Republican Party in Alaska. Not being able to vote in the Caucus because none of my calls were returned from Cordova (the nearest caucus)or ruderich's office, I was simply left without voicing my opinion. I sent multiple e-mails and left multiple messages and still received no response. I was asking why a person from rural alaska couldn't be a delegate. I don't expect you to give me the answer. But possibly set me in the right direction to get someone who can.

My second problem is that our local fishery is looking to be a total failure thus far. With the high energy and food prices and winter coming sooner than anyone plans, I was wondering if any preliminary plan to help local fisherman and their families can be looked at in the worst case scenario that coho's do not show. I am not trying to sound too bleak, just hopefully prepared. Our economy is in sad shape as I am sure you are aware from other letters from around the Southeast as well. After the Summer people go home and the local people are left to fend for the winter, I fear that is when things will be toughest on the people of Yakutat.

Lastly I would like to congulate you on your new baby and wish the best in all that life brings you. Stand Strong and know that are Republicans in Yakutat that stand with you.

Sincerely,

Rick Newlun

Subject: AFN Roundtable - Energy Conference - Tomorrow, Tuesday, 08.05.08 - 10:00 a.m.

Governor – you had marked that you would like to attend the AFN Roundtable Energy Conference that is here in ANC tomorrow, Tuesday, 08.05.08 at the Captain Cook Hotel. The Conference is from 9:00 a.m. – 12:00 p.m. The Senators are arriving at 10:00 a.m. (suggested time for your arrival).

9:00 a.m. – Continental Breakfast
9:30 a.m. – Welcome Remarks: State Senator Albert Kookesh
Morning Session – Roundtable w/Individual comment period
10:00 a.m. – Governor arrives (pending)
10:05 a.m. – Opening Prayer – Dr. Walter Sobeloff
10:10 a.m. – Introduction of Guests:
Honorable Ted Stevens and Mrs. Catherine Stevens
Honorable Daniel Inouye, U.S. Senator for Hawaii and Mrs. Irene Hirano Inouye
Honorable Lisa Murkowski – By Teleconference
Honorable Sara Palin, Governor of Alaska

10:30 a.m. – Remarks by Alaska Governor Sarah Palin - You would be requested to give (5 minute speech) on Energy.

You then could also stay for the roundtable discussion if you would like in regards to: Major Changes in the Wind (What is different today for Native Americans, than last year) and Investing in Our Collective Future (A short discussion on what we can do to participate in the economy to benefit our people in the long run).

12:00 p.m. – Adjournment

Please let me know if you would like confirmed attendance as they would prefer you in person but would also do teleconference if you can not attend in person. Thanks, Janice

ED REVIEW

August 1, 2008

...a bi-weekly update on U.S. Department of Education activities relevant to the Intergovernmental and Corporate community and other stakeholders

---

TRANSFORMING HIGHER EDUCATION

On July 18, Secretary Spellings delivered remarks at the 2008 Higher Education Summit in Chicago. "While I still have the bully pulpit, I want to speak frankly to you about what I think needs to be done," she said. "The National Center for Higher Education Management Systems estimates, to keep up with international competition, at least 20 million more Americans must access higher education by 2025.... To meet this challenge, we must improve the 'Three A's' of access, affordability, and accountability." "We, at the federal level, are doing more," she continued. In 2008, Pell grantees will benefit from the largest increase in their annual award in 30 years, and all students will benefit from new tools to help them choose a college and apply for financial aid, including College.gov, the FAFSA4caster, the College Navigator, and a "Federal Aid First" brochure. "In addition," she noted, "I'm heartened that a pioneering band of innovators is embracing my commission's recommendations," such as the Massachusetts Institute of Technology's free, open courseware and Stanford University's podcasts of hundreds of free courses. "At the same time, I am disappointed that many challenges of leadership remain unmet.... So, I feel honor-bound to remind you that, in the absence of continued leadership in education, others will step in. When public demand reaches critical mass, policymakers are compelled to act, whether they're in Congress or state legislatures." The Secretary concluded with a challenge. "To meet our need for 20 million by 2025, we must broaden and elevate the conversation," she said. "Let's start by giving ourselves a deadline to reach the halfway point by the next presidential election in 2012. We have only begun to tap the potential of the American population." FOR MORE INFORMATION, PLEASE GO TO http://www.ed.gov/news/pressreleases/2008/07/07182008.html.

Also: After 14 extensions and months of intense negotiations, Congress has approved a bill to

reauthorize the *Higher Education Act*. The bill, which sets federal higher education policy for at least the next five years, now goes to President Bush, who is expected to sign it into law -- even though the administration has expressed concern about the creation of more than 60 new programs. FOR MORE INFORMATION, PLEASE GO TO http://edlabor.house.gov/micro/coaa.shtml. (The Secretary's statement is available at http://www.ed.gov/news/pressreleases/2008/07/07312008.html.)

STEM PARTNERSHIPS

On July 22, professional golf player Phil Mickelson and his wife Amy visited the Department to emphasize the importance of math and science by showing local students how these subjects influence the game of golf. On a mini-golf course temporarily assembled on the floor of the Department's auditorium, the golfer known as "Lefty" adeptly demonstrated how angles, friction, and motion all contribute to the direction a golf ball rolls. The Mickelsons help sponsor the Mickelson ExxonMobil Teacher Academy, which gives teachers practical, hands-on ways of making math and science interesting in the classroom. The academy's annual summer camps have prepared 1,200 teachers. FOR MORE INFORMATION, PLEASE GO TO http://www.ed.gov/news/pressreleases/2008/07/07222008.html.

Later that same day, the Mickelsons testified before the House Education and Labor Committee on how business-education partnerships can help drive innovation and strengthen math and science education. The stellar panel of witnesses also included astronaut Sally Ride, Tom Luce of the National Math and Science Initiative, and top representatives from IBM, Raytheon, and Texas Instruments. FOR MORE INFORMATION, PLEASE GO TO http://edlabor.house.gov/hearings/fc-2008-07-22.shtml.

ADA ANNIVERSARY/WOUNDED WARRIORS

In a recent "Dear Colleague" letter, Assistant Secretary for Civil Rights Stephanie Monroe commemorates the 18th anniversary of the enactment of the *Americans with Disabilities Act* (ADA). "America is undeniably stronger because of the ADA and contributions individuals with disabilities have made to every aspect of our society," she stated. "The Department's Office of Civil Rights (OCR) has played an important role in implementing and enforcing the ADA, by working with state and local education agencies, as well as postsecondary schools, to make groundbreaking strides in providing access to opportunities for students with disabilities on a non-discriminatory basis." Nevertheless, she added, "Today, we face new challenges and must implement creative solutions to meet those new challenges. In that vein, I am pleased to announce a...Wounded Warriors Initiative." Many veterans returning from Operation Enduring Freedom or Operation Iraqi Freedom are individuals with disabilities who intend to pursue higher education (aided by the revamped GI Bill). Yet, because these "wounded warriors" acquired disabilities during their service, they have no history of receiving disability-based accommodations in high school. Accordingly, they are less familiar with their disability-related rights and responsibilities. Moreover, most colleges and universities have limited experience accommodating students with the types of disabilities associated with these individuals. Under the initiative, OCR will support veterans with disabilities who have questions about their ADA rights and responsibilities, work with institutions and service providers wanting to know how best to support veterans with disabilities, and encourage institutions to adopt innovative approaches to serve this important population. FOR MORE INFORMATION, PLEASE GO TO http://www.ed.gov/about/offices/list/ocr/letters/colleague-20080725.html.

Note: A new OCR publication, "So You Want to Go Back to School" (http://www.ed.gov/about/offices/list/ocr/letters/back-to-school-2008.html), supplies detailed

information on ADA and higher education for veterans.

GRANT AWARDS

With the new school year just around the corner, the Department continues to award grants under major competitive programs:

- Improving Literacy Through School Libraries: $18.25 million to enhance school libraries in 59 low-income school districts across 22 states (http://www.ed.gov/news/pressreleases/2008/07/07182008a.html).
- Foreign Language Assistance Program: $2.2 million to increase the number of students learning foreign languages critical to national security or commerce in seven districts and one charter school across seven states (http://www.ed.gov/news/pressreleases/2008/07/07222008b.html).
- Special Education: a $1.5 million grant to the University of Illinois at Chicago for a national center that will help minority institutions locate funding for projects that serve students with disabilities, especially in personnel development (http://www.ed.gov/news/pressreleases/2008/07/07222008a.html), and $2.4 million to help train teachers of students with high incidence disabilities in 20 institutions across 15 states (http://www.ed.gov/news/pressreleases/2008/07/07292008.html).
- Emergency Management for Higher Education: $5.2 million to develop and implement plans for preventing and responding to campus violence and natural disasters at 13 college and universities across 11 states (http://www.ed.gov/news/pressreleases/2008/07/07302008.html).

Also: Five states (FL, ID, NY, OR, and UT) are receiving grants under the Charter Schools Program, which supports efforts to plan, design, implement, and disseminate information about charter schools. FOR MORE INFORMATION, PLEASE GO TO http://www.ed.gov/programs/charter/.

ANALYSIS: CTE AND ADULT LITERACY

"Career and Technical Education (CTE) in the United States: 1990-2005," the latest compendium on CTE from the Department's National Center for Education Statistics (NCES), looks at CTE offerings, who participates in CTE, what types of CTE students take, who teaches CTE, and the labor market and further education outcomes attained by CTE participants. The report documents that, between 1990 and 2005, the number of CTE credits earned by public high school graduates remained steady, despite the trend of more academic coursetaking in high school. The report also found that, at both the high school and college level, student participation increased in the occupational areas of health care and computer science, while it decreased in business. FOR MORE INFORMATION, PLEASE GO TO http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2008035.

"Bridges to Opportunity: Federal Adult Education Programs for the 21st Century," the report of the Interagency Adult Education Working Group, identifies ways to improve federal education programs for adults who need to better their basic literacy skills. The report makes six specific recommendations to help ensure: (1) federal programs serving adults will be utilized in a manner that increases the effectiveness, efficiency, and availability of such programs and (2) literacy skills of adults will be strengthened, thereby improving their opportunities for transitions to postsecondary education and employment. Need examples? The report spotlights 11 adult literacy programs across five agencies and four federal entities that

are authorized to conduct and disseminate research on adult education. FOR MORE INFORMATION, PLEASE GO TO http://www.ed.gov/about/offices/list/ovae/eo13445.pdf.

VOLUNTEERING IN AMERICA

This week, USA Freedom Corps and the Corporation for National and Community Service launched a new web site, http://www.volunteeringinamerica.gov, with volunteering trends throughout the U.S. Users can access volunteering data and information for the entire nation, regions, states, and 162 large and mid-sized cities. Users will also be able to view how states and cities rank by volunteer rates and hours. Nearly 61 million Americans volunteered in their communities, giving 8.1 billion hours of service worth more than $158 billion. For the third straight year, Utah was the top state with a volunteer rate of 43.9%. Minneapolis-St. Paul ranked first among large cities, with 39.3%, and Provo, Utah, ranked first among mid-sized cities, with a remarkable 68.3%.

Note: Volunteers spend approximately 15 hours watching TV in a typical week, compared to 23 hours for non-volunteers. That eight-hour difference that adds up to over 400 hours over the course of a year.

QUOTE TO NOTE

"One of the biggest barriers to change [in postsecondary education] is a lack of coordination between high schools and higher education. Too often, high school coursework is not rigorous or varied enough to act as a springboard to success in college.... The problem is not a lack of resources. My agency recently returned more than $500 million in Academic Competitiveness (AC)/National Science and Mathematics Access to Retain Talent (SMART) grants to the U.S. Treasury. Why? Because we could not find enough college-ready students from low-income families to take them. That is $500 million that has gone unused, and countless more untapped human potential."

-- Secretary of Education Margaret Spellings (7/18/08), at the 2008 Higher Education Summit in Chicago

UPCOMING EVENTS

Are you interested in serving as the superintendent in a large urban school district? Or, is there someone you would strongly recommend? The Broad Superintendents Academy is currently seeking candidates for its 2009 class. The academy is an executive program designed to prepare America's most effective leaders (whether from government, education, civic, corporate, or military backgrounds) to transform the nation's most challenged school districts. Participants remain in their current positions while attending; tuition and travel costs are covered. Please contact Julie McGinity at (310) 922-7965 or mailto:jmcginity@broadcenter.org by August 15. FOR MORE INFORMATION, PLEASE GO TO http://broadacademy.org/.

This week, the Department will be exhibiting at the Progressive National Baptist Convention in Atlanta (August 3-8). If you are attending this event, please stop by the Department's booth.

Please feel free to contact the Office of Communications and Outreach with any questions:
Director, Intergovernmental Affairs -- Rogers Johnson, (202) 401-0026, mailto:Rogers.Johnson@ed.gov

Deputy Director -- Keith Brancato, (202) 401-6178, mailto:Keith.Brancato@ed.gov
Program Analyst -- Adam Honeysett, (202) 401-3003, mailto:Adam.Honeysett@ed.gov

To be added or removed from distribution, or submit comments (we welcome your feedback!), contact Adam Honeysett. Or, visit http://www.ed.gov/news/newsletters/edreview/.

There was a quote from Hal Kvisle in the Daily Globe and Mail today saying the project would go forward when Exxon is happy.

It was a poor quote and even worse timing. Legislators are upset and some of our opponents (notably Bob Roses) are trying to stir up trouble.

TC is getting a letter of clarification from Kvisle right now. What we have told legislators is that this isn't really new: everybody is going to have to be happy, including Exxon.

address: HC 35 Box 5420CR Wasilla AK 99654

(907) 561-1800

MESSAGE:

Dear Gov. Palin:

Now that a TransCanada has been sucessfully been awarded the legislators' approval and state's license to begin the process necessary to build a gas pipeline, and the legislators are well on their way in deciding the appropriate energy rebate administration/application, it appears that your major priorities for the citizens of Alaska have been fullfilled.

May I suggest now that it is time to readdress by additional call to the legislators to rectify the following: HB 364

"An Act relating to

notice and consent for a minor's abortion; relating to penalties for

performing an abortion; relating to a judicial bypass procedure for an

abortion; relating to coercion of a minor to have an abortion; and

relating to reporting of abortions performed on minors"

I do know that Sen. Green has repeatedly requested a special session call and you have denied these requests. I dearly do not want to believe that your decisions have been biased by your apparent personal feelings for Sen. Green.

I also know that you yourself have the highest regard for the sanctity of life and support the rights of families to make good sound decisions for their children; not the government or the school nurse.

Now that you experience success in all your public policies and high regard by the citizens of Alaska, would you please afford Sen. Green one more time to demonstrate that the Senate can get this issue of parental consent right this time? I do know that many other members of the Senate as well as most families with daughters would like to have this horrible policy made right as well; and soon.

Other auto-responses I have received have reminded me that you are very busy but find my inquiry important. I do understand this. But if I may be so bold, I do desire a real and issue-directed response and one directed to Sen. Green as well.

Thank you for your time. Submitted by a humble citizen.

Dr. Catherine Mormile

MESSAGE:

Sarah,

I remember a time WAY BACK WHEN when I took you under my wing at KTUU-TV2 in Anchorage, AK.

I had NEVER connected Sarah Heath with Sarah Palin UNTIL our good friend (and my fellow sports reporter) Steve Turcotte connected the dots for me during his recent trip to Juneau!

My heartfelt congratulations to you for all you've accomplished in your incredible life in Alaska.

I would welcome the opportunity to see you again some day and --at the very least-- to talk with you on the phone soon.

I trust you will do all that's possible to make that happen!!!

I'm in San Diego where I've spent most of the last two years nursing my aging parents through the last years of their lives and safely delivering them back to their Lord and creator.

My blessings and my best to you, young lady!

Sincerely,

John Hernandez

So far, here's the only quote I have been able to find:

From Obama's "New Energy for America" plan, at
http://www.barackobama.com/pdf/factsheet_energy_speech_080308.pdf

"Prioritize the Construction of the Alaska Natural Gas Pipeline. As president, Obama will work with the Canadian government, state of Alaska, oil and gas producers, and other stakeholders to facilitate construction of the pipeline. While this pipeline was proposed in 1976, and Congress authorized up to $18 billion in loan guarantees for this project in
2004, there has been no progress in building this critical energy infrastructure under the Bush Administration. The planned pipeline would have a daily capacity of 4 billion cubic feet of natural gas, or almost 7 percent of current U.S. consumption. Not only is this pipeline critical to our energy security, it will create thousands of new jobs."

This isn't much to respond to, but I will keep scouring the net.

Joe

Subject: AFN Roundtable - Energy Conference - Tomorrow, Tuesday, 08.05.08 - 10:00 a.m.

Governor – you had marked that you would like to attend the AFN Roundtable Energy Conference that is here in ANC tomorrow, Tuesday, 08.05.08 at the Captain Cook Hotel. The Conference is from 9:00 a.m. – 12:00 p.m. The Senators are arriving at 10:00 a.m. (suggested time for your arrival).

9:00 a.m. – Continental Breakfast
9:30 a.m. – Welcome Remarks: State Senator Albert Kookesh
Morning Session – Roundtable w/Individual comment period
10:00 a.m. – Governor arrives (pending)
10:05 a.m. – Opening Prayer – Dr. Walter Sobeloff
10:10 a.m. – Introduction of Guests:
Honorable Ted Stevens and Mrs. Catherine Stevens
Honorable Daniel Inouye, U.S. Senator for Hawaii and Mrs. Irene Hirano Inouye
Honorable Lisa Murkowski – By Teleconference
Honorable Sara Palin, Governor of Alaska

10:30 a.m. – Remarks by Alaska Governor Sarah Palin - You would be requested to give (5 minute speech) on Energy.

You then could also stay for the roundtable discussion if you would like in regards to: Major Changes in the Wind (What is different today for Native Americans, than last year) and Investing in Our Collective Future (A short discussion on what we can do to participate in the economy to benefit our people in the long run).

12:00 p.m. – Adjournment

Please let me know if you would like confirmed attendance as they would prefer you in person but would also do teleconference if you can not attend in person. Thanks, Janice

Governor Palin,

I just thought I should tell you this interesting story. While I was a grenade range instructor down at ft.benning in 2007, I had noticed a young man come to my live grenade pit with the name of palin. So I made a smart remark of come on alaska lets through this next grenade. then i hesitated and asked him if he was any relation. He said he was your son. I was extremely proud to have your son come to my grenade pit! I respect you and your family highly for everything you have done for alaska. I was stationed in Fort Wainwright, AK for 3 years from 2004 to 2007 and I did vote for you. I just wanted to let you know that.

Web mail from: Mr. Prof. Steve Langdon

address: University of Alaska Anchorage 3211 Providence Drive Anchorage AK 99508

907-227-3126

MESSAGE:

I request that the program outlined below be immediately placed before the Legislature with the Governor's support. The University of Alaska Anchorage - Institute of Social and Economic Research stands prepared to assist in the analysis of the design and implementation of this program.

STATE OF ALASKA

SUBSISTENCE PRODUCTION SUPPORT PROGRAM

In addition to the high heating costs faced by Alaska's remote rural population, food security is also directly linked to the enormously increased costs of energy.

Substantial portions of the basic subsistence foodstuffs for rural Native and non-Native Alaskans are produced from local fish, wildlife, birds, plants and other resources. Acquisition of these necessary foods requires transit to sites for their procurement normally accomplished through some means of motorized transport.

The summer and early fall are the seasons when subsistence foods must be harvested, procured and processed. A program of financial support for subsistence transport costs in rural Alaska is vitally needed to insure that food security needs of elders, children and other will be met this winter.

Such a program of support would help insure that customary and traditional fresh, high quality local foods are available to remote rural residents this fall.

Therefore, the State of Alaska should implement a one-year SUBSISTENCE PRODUCTION SUPPORT PROGRAM that would provide payments for fuel costs associated with subsistence production in all remote rural communities. Up to $400 in fuel costs would be provided per individual subsistence producer. Subsistence hunters and fishermen would access these funds by providing a State subsistence license, or other appropriate registration, and receipts for fuel purchases linked to subsistence transportation costs.

In addition to providing for food security, high quality nutrition, and health maintenance, such a program will also extend the effectiveness of the State's effort to provide assistance for heating costs by providing this support.

Steve J. Langdon, Ph.D.

Subject: Resend commentary for public hearings on 4002,3,4,5, 8-2-08

Date: 8-1-08 Friday
To: Letislature, our Gov, Atty Gen, and the Alaska public
From: Paul D. Kendall
Specifically To: THE Senate and House Committees hearing the bills on PCE, Hess, Fuel Tax, Weatherization, and $1200 exstortion by Producers....
--- Indian Givers? Take Backs?

Please accept my testimony in reference to the above issues -- bills..

Date: 7-31-08 Thursday
To; Senate and House committees reviewing Hb 4002,3,4,5,6, ??
Ref: testimony on House bills... on pce, hess , liea, fuel tax, weather etc....Please accept my testimony as matter of record in your hearings..

From: Paul D. Kendall

Ladies and Gentlemen,,,

Please consider the following reflections:

1) **Who are you serving and trying to help? -- Families and our dwellings**
OR Capitalists, Free Enterprise Investors, Free Markets ? OR the Oil Companies and their Refineries and distributors ?
Do you remember what i told you about the
"Fossil Fuel Distribution Network Distribution System"?? (how they never get enough feed)
and The Biggest Card they play is;
a) its not me, its them others, over there
b) JOBSFEAR, JOBS FEAR, JOBS FEAR (its the only emotion i ever see from them, and they really know how to "work it", jobs fear that is)

2) **Are all of you afraid to call the Refineries/Distributors to testify** on future fuels stability of supply and pricing? and And how the distribution works ? Or how about a record of their users amounts and distinations....Hmmmm
Or, How will their refineries and the stations sell off affect Alaska? Hmmmmmm

3) **Mr. Hawker,, How can you achieve:**
Efficiency, Equitable, Effective,,,(conservation ha ?, Alternative, and ?) these?
Without testimony from the responsible parties of Refiners and distributors....Then, all you have is hear say !!!
All of the "**complex and complicated, now you see, me now you dont, testimony**" from AEA, AIDEA, PCE, LIEHA, HESS, WEATHERIZATION, AND A WHOLE BUNCH MORE FEEDERS, (some CO-0PS ?), is foolish without original source data, accountability, and understanding.....

4) **You need to scrap the current programs** and start a "Home owners energy bill of rights"with an annual energy allotment based on an electricity and water use formula per dwelling!

REMEMBER THIS IF NOTHING ELSE --
OUR ENERGY WAS SUPPOSED TO MAKE US ALL A MORE FREE PERSON AND NEIGHBOR IN MY HOUSE WITH MY FAMILY;
--- NOT MAKE ME A SLAVE TO INVESTMENT PORTFOLLIO PROFITS FOR THE LAZY, SWEATLESS, FEDERAL RESERVE, AND THOSE IN THE MIDDLE EAST KILLING OUR CHILDREN!

5) **Unleash the dogs and let them scent** the trail to those who are raising the prices on our families "life essential energies needs"; ----cut

6) **You need a new, fresh, and clean department** with no addictions.
Dedicated soley to the welfare of our Homes and family energy needs; And our Freedoms!
Locate this department under the arm of the dept of justice.
You need this Department right now!

In closing,
This is a moment for all of you to be together as leaders and to shine with this task... ((((Just pass AGIA.. and lets get going withour new future which we can do daily from now on....Lets move on ... this stuff before you is more important than AGIA!
AGIA is now in the hands of the World wide ENERGY Markets and all of those billions of people who are pissed off about being enslaved by energy manipulators.....))))))

This is a chance for you to be in history as a new society.... Those who tell you 10 years out to be a new society, well, part right, but ... they are stuck in old ways and habits and narrow thinking, and fear of new dreams...

You are being undermined, minimized, scapegoated and used as a conduit to deliver $$$$$to the fossil fuel distribution network, which will never get enough money from your families...and loved ones....
You will bankrupt us if you do not stop this extraction of our earned resource value money from us back to them few men who manage the Oil Companies!

HEY!; At the very least, for our money you are giving back to the producers, let us see the eyes and the faces of those others behind AEA, ADIEA, HESS, Denali, Fuel, PCe, Fossil Fueled Co-Ops, Politician, and the others;

You owe us and our children of Alaska a look at the faces of "The refineries and distributors" who act as the arms of distribution from the distributors !!

Paul D.Kendall

(look up "EV world" and read their archive articles too)

One billion dollars would buy 100,000 to 125,000 Electric Vehicles. If you screen out too old, dont drive, and option to buy , you could deliver a new electrical vehicle to nearly every dwelling in Alaska........Wake up tommorow and vwah-la, sha-zammm, kabamm, gift wrapped and ready to go... lets talk....!

100,000 EVs saving us 1,000 gallons of gas per year = 100,000,000 gallons of gas and oil, X $ 3.oo per gallon = $ 300,000,000.oo stays in the community of Alaska
(65% to 85% of your energy bill money goes to energy owners and others, outside)
Now, we move the the 100,000,000 gallons of gas back to oil and ship it out for sale and make money on that, and then we have service infrastructure needs for EV, Grants moneys, partnerships with All major auto dealers around the world..
The Oil Procucers bring Hydrogen Refueling and Geothermal Plants to COnstruction, while we do 200 + small hydro electric plants and 25 major hydroelectric projects,,,,,
and New research and development for Home Refueling plants for our homes and what do you have ????

--A VERY WEALTHY NATION CALLED ALASKA ! WHOS CHILDREN WILL BE IN A LEADERSHIP ROLE IN THE WORLD IN WATER BASED FUELS RESEARCH AND TECHNOLOGY AWARNESS;
AND WITH THE PERMANENT FUND INVESTMENTS INTO OUR FORWARD UNDERSTANDING OF WATER AND ELECTRICITY HARMONIC FUELS MATERIALS AND APPLICATIONS. WE WILL INVEST WISELY AND REAP LARGE REWARDS...

MANY CLEAN INDUSTRIES WILL WANT TO LOCATE HERE DUE TO OUR "VAST CLEAN ENERGY "SWITCH ON" CAPACITY AND CAPABILITIES" IN READY AND RESERVE..

This is just the tip of what waits for you now and in the future...And you can start today by just calling in the producers and telling them... Enough is Enough; We are Done! Here is how it is going to be and how it is going to happen....!

Your going to role back all local refined fuels prices to this date and amount __?
Any additional moneys you think you are owed you can submit to a special fund of review for readjustment at a later date!
All and each of you are going to commit our gas to the AGIA process or leave!
And, we are all headed for a new society and we want a full array of new technology products constructed now, beginning with:
-- 10 new commercial Hydrogen refeuling stations

-- 600,000 Photovoltaic Solar Panel Kits for immediate residential installations
---5 major Megawatt capabilities Geothermal Projects
---10 small micro Geothermal power projects.
---Major home refueling, water based energies research technology centers set up in every major city community colleges and universities in Alaska....
---Alaska Railroad decaled a special interest project for Hydrogen fueled shuttle bus or carriers on tracks to various rail sites around the State... ..
(look, the list of lomg overdue and wonderful thing to be done is just too long for now!)

We expect to see your same Dubai like loyalty here in Alaska, from all of you... period! Or we will evict you and sue you in a national and world court arena, on live video for the whole world to see....

Paul D. Kendall

pauldkendall@yahoo.com

Oh, and by the way,, It is difficult to end in such a way,,,
Surely, you realize the oil companines cannot --impact an economy unless they have something to impact with; like say a work force of several hundred or thousand--
It is my opinion the Oil Companies are going to **smack down the Alaskan Economy!** Because I am not privy to the inside events and the outside reconstructing of markets i cannot forcast exactly when, but I do smell it in the air by the things they are not doing....
By Alaska having our ENERGY VISION IN PLACE NOW, THE IMPACT SHOULD BE MINIMISED; EVEN PERHAPS AVOIDED AND TURNED TO A VERY SPECIAL PLACE..

AEA NEEDS TO BE RESTRUCTURED AND SUBDIVIDED INTO A SPCECIFIC AREA --- OF OBSERVABLE EXSPECTATIONS, ACTIONS, PRODUCTIONS AND RESULTS ACHIEVMENTS.
1....MY SURFACE THINKING IS **LIMITED TO HYDRO OR WATER RELATED BASED POWER GENERATION PROJECTS ONLY**

2....AND BRING IN CHUGIACH AND THE STATE TO DO OVERSIGHT ON
3...TRANSMISSION AND DISTRIBUTION INTERTIE AND STORAGE ASPECTS..
4....AND YET ANOTHER DEPARTMENT FOR HOME ENERGY NEEDS TECHNOLOGIES
5....AND YET ANOTHER DEPARTMENT FOR HOME TRANSPORTATIONS

PAUL D. KENDALL

Governor Signs Disaster Declaration for Flood Impacted Communities

August 4, 2008, Fairbanks, Alaska – Governor Sarah Palin today signed a Declaration of Disaster Emergency for the widespread flooding in the Northern and Interior regions of the state this afternoon at the Fairbanks North Star Borough Assembly Chambers.

"Our state emergency management professionals have done an exceptional job evacuating citizens and reducing the impact to homes and businesses," Governor Palin said. "However, much work remains to be done. This Declaration of Disaster Emergency will give local officials and state responders the ability to continue the swift and coordinated response effort that has been taking place."

The Governor's office will continue to monitor the situation to ensure state employees are doing everything possible to protect the lives and safety of the impacted citizens.

"Governor Palin instructed us to act quickly to make sure the needs of the residents of the northern and interior regions were met as described to us by the local mayors," Department of Military and Veterans Affairs Commissioner Craig E. Campbell said. "Our State Emergency Coordination Center has been in full swing, working with the Fairbanks North Star Borough emergency operations center as well as the communities affected outside the borough boundary."

This Declaration of Disaster Emergency will authorize state agencies to use disaster recovery programs to help repair impacted infrastructure, facilities and homes.

"I have seen, firsthand, the damage caused by this flooding, and I am very pleased that the Governor has come to the Golden Heart City to sign this disaster declaration," Borough Mayor Jim Whitaker said. "This declaration will allow the people of the Interior to move through this tough time as quickly as possible."

The Fairbanks North Star Borough Disaster Declaration estimates damage to more than 500 homes. Individuals with real property damage or loss of personal items can call the State of Alaska's Individual Assistance Hotline at 1-800-921-3682.

Governor,

Here are your remarks for the press conference. Melissa will have them printed out for you on cards. They have been approved by numerous sources, including General Campbell. Please let me know if you have any questions or if I can be of any further assistance. Have a great trip!

Kate Morgan
Communications Coordinator
Office of Governor Sarah Palin
(907) 269-7450

Good afternoon & thank you all for being here. I'd like to thank Dpt. of Military & Veterans' Affairs Comm. Craig Campbell for all the good work that he & his dpt. are accomplishing as they collaborate with & assist affected Mayors & communities as they continue to deal with the effects of the recent flooding. We have with us today several mayors that I'll now recognize: they are Fairbanks North Star Borough Mayor Jim Whitaker, Fairbanks City Mayor Terry Stir-ull, North Pole City Mayor Doug Isaacson, & Nenana Mayor Jason May-rand. Thank you all for coming.

It's good to be here with you today although, unfortunately, these are not the circumstances anyone likes to meet under. Having received numerous briefings from state & local officials, as well as the state's Dpt. of Homeland Security & Emergency Management, today I am officially declaring a disaster emergency due to torrential flooding for the Northern & Interior AKn communities of the Fairbanks North Star Borough, the Village of Wainwright & the City of Kaktovik in the North Slope Borough, the City of

Nenana in the Yukon-Koyukuk REAA, the Denali Borough & the Fairbanks North Star Borough. It is estimated that more than 500 homes have been damaged, & estimates are just beginning to roll in as the flooding continues to recede.

This declaration of Disaster Emergency authorizes state agencies to use disaster recovery programs to help repair impacted infrastructure, facilities & homes. The declaration will also give local officials & state responders the needed support to continue the swift & coordinated response effort that has already been taking place. Many thanks to the leadership in the North Star Borough for their preparation & responsiveness to the situation; I also applaud the many communities who have drawn closer as a result of this crisis & assisted their fellow AKns in need.

NOW THEREFORE, on this 4th day of August, 2008, under authority granted by AK Statutes Section 26.23.020, I hereby declare that a condition of disaster emergency exists in the aforementioned communities in Northern & Interior AK.

Sign Declaration

State of Alaska to Sue over Polar Bear Listing

August 4, 2008, Juneau, Alaska – Governor Sarah Palin announced today the State of Alaska has filed a lawsuit in U.S. District Court for the District of Columbia seeking to overturn U.S. Interior Secretary Dirk Kempthorne's decision to list the polar bear as threatened under the Endangered Species Act.

This action follows written notice given more than 60 days ago to Secretary Dirk Kempthorne of the Department of Interior and Director Dale Hall of the U.S. Fish and Wildlife Service asking that the regulation listing the polar bear as threatened be withdrawn.

"We believe that the Service's decision to list the polar bear was not based on the best scientific and commercial data available," Governor Palin said.

The Service's analysis failed to adequately consider the polar bears' survival through prior warming periods, and its findings that the polar bear is threatened by sea-ice habitat loss and inadequate regulatory mechanisms to address sea-ice recession are not warranted. The Service also failed to adequately consider the existing regulatory mechanisms, including conservation measures within Alaska and the international community, which have resulted in a sustainable worldwide polar bear population that has more than doubled in number over the last 40 years to 20,000-25,000 bears.

The State takes seriously its obligation and interest in the management, conservation, and regulation of all wildlife and other natural resources within its jurisdiction. Alaska is also responsible for the welfare of its citizens, who are deeply concerned that the unwarranted listing of the polar bear as a threatened species will have a significant adverse impact on Alaska by deterring activities such as commercial fisheries, oil and gas exploration and development, transportation, and tourism within and off-shore of Alaska.

Governor Palin also noted that the State continues to follow the actions resulting from the listing closely. On July 12, the State submitted comments on an "interim final rule" dealing with incidental-take provisions under the Endangered Species Act seeking changes to that rule to exempt all activity outside of the polar bear's normal range from incidental-take prohibitions. "We believe that the Service's decision to treat areas of Alaska where polar bears do not exist differently from the rest of the United States is arbitrary," Governor Palin said.

The public comment period on the interim final rule ended July 14, and while Alaska is hoping for rapid action by the Secretary to adopt a new final rule, it is also evaluating options for challenging the interim final rule if a revised final rule is not adopted soon.

"Although we disagree with this listing determination and with the Service's initial implementation of the decision, we look forward to continued cooperation with the Service in the many other areas involving Alaska's fish and wildlife resources," Governor Palin said.

Ladies and Gentlemen,,,

Please consider the following reflections:

1) **Who are you serving and trying to help? -- Families and our dwellings**
OR Capitalists, Free Enterprise Investors, Free Markets ? OR the Oil Companies and their Refineries and distributors ?
Do you remember what i told you about the
"Fossil Fuel Distribution Network Distribution System"?? (how they never get enough feed) and The Biggest Card they play is;
a) its not me, its them others, over there
b) JOBSFEAR, JOBS FEAR, JOBS FEAR (its the only emotion i ever see from them, and they really know how to "work it", jobs fear that is)

2) **Are all of you afraid to call the Refineries/Distributors to testify** on future fuels stability

of supply and pricing? and And how the distribution works ? Or how about a record of their users amounts and distinations....Hmmmm
Or, How will their refineries and the stations sell off affect Alaska? Hmmmmmm

3) **Mr. Hawker,, How can you achieve:**
Efficiency, Equitable, Effective,,,(conservation ha ?, Alternative, and ?) these?
Without testimony from the responsible parties of Refiners and distributors....Then, all you have is hear say !!!
All of the **"complex and complicated, now you see, me now you dont, testimony"** from AEA, AIDEA, PCE, LIEHA, HESS, WEATHERIZATION, AND A WHOLE BUNCH MORE FEEDERS, (some CO-0PS ?), is foolish without original source data, accountability, and understanding.....

4) **You need to scrap the current programs** and start a "Home owners energy bill of rights"with an annual energy allotment based on an electricity and water use formula per dwelling!

REMEMBER THIS IF NOTHING ELSE --
OUR ENERGY WAS SUPPOSED TO MAKE US ALL A MORE FREE PERSON AND NEIGHBOR IN MY HOUSE WITH MY FAMILY;
-- NOT MAKE ME A SLAVE TO INVESTMENT PORTFOLLIO PROFITS FOR THE LAZY, SWEATLESS, FEDERAL RESERVE, AND THOSE IN THE MIDDLE EAST KILLING OUR CHILDREN!

5) **Unleash the dogs and let them scent** the trail to those who are raising the prices on our families "life essential energies needs"; ----cut

6) **You need a new, fresh, and clean department** with no addictions.
Dedicated soley to the welfare of our Homes and family energy needs; And our Freedoms!
Locate this department under the arm of the dept of justice.
You need this Department right now!

In closing,
This is a moment for all of you to be together as leaders and to shine with this task... ((((Just pass AGIA.. and lets get going withour new future which we can do daily from now on....Lets move on ... this stuff before you is more important than AGIA!
AGIA is now in the hands of the World wide ENERGY Markets and all of those billions of people who are pissed off about being enslaved by energy manipulators.....))))))

This is a chance for you to be in history as a new society.... Those who tell you 10 years out to be a new society, well, part right, but ... they are stuck in old ways and habits and narrow thinking, and fear of new dreams...

You are being undermined, minimized, scapegoated and used as a conduit to deliver $$$$$to the fossil fuel distribution network, which will never get enough money from your families...and loved ones....
You will bankrupt us if you do not stop this extraction of our earned resource value money from us back to them few men who manage the Oil Companies!

HEY!; At the very least, for our money you are giving back to the producers, let us see

the eyes and the faces of those others behind AEA, ADIEA, HESS, Denali, Fuel, PCe, Fossil Fueled Co-Ops, Politician, and the others;

You owe us and our children of Alaska a look at the faces of "The refineries and distributors" who act as the arms of distribution from the distributors !!

Paul D.Kendall

(look up "EV world" and read their archive articles too)

One billion dollars would buy 100,000 to 125,000 Electric Vehicles. If you screen out too old, dont drive, and option to buy , you could deliver a new electrical vehicle to nearly every dwelling in Alaska........Wake up tommorow and vwah-la, sha-zammm, kabamm, gift wrapped and ready to go... lets talk....!

100,000 EVs saving us 1,000 gallons of gas per year = 100,000,000 gallons of gas and oil, X $ 3.oo per gallon = $ 300,000,000.oo stays in the community of Alaska
(65% to 85% of your energy bill money goes to energy owners and others, outside)
Now, we move the the 100,000,000 gallons of gas back to oil and ship it out for sale and make money on that, and then we have service infrastructure needs for EV, Grants moneys, partnerships with All major auto dealers around the world..
The Oil Procucers bring Hydrogen Refueling and Geothermal Plants to COnstruction, while we do 200 + small hydro electric plants and 25 major hydroelectric projects,,,,,
and New research and development for Home Refueling plants for our homes and what do you have ????

--A VERY WEALTHY NATION CALLED ALASKA ! WHOS CHILDREN WILL BE IN A LEADERSHIP ROLE IN THE WORLD IN WATER BASED FUELS RESEARCH AND TECHNOLOGY AWARNESS;
AND WITH THE PERMANENT FUND INVESTMENTS INTO OUR FORWARD UNDERSTANDING OF WATER AND ELECTRICITY HARMONIC FUELS MATERIALS AND APPLICATIONS. WE WILL INVEST WISELY AND REAP LARGE REWARDS...

MANY CLEAN INDUSTRIES WILL WANT TO LOCATE HERE DUE TO OUR "VAST CLEAN ENERGY "SWITCH ON" CAPACITY AND CAPABILITIES" IN READY AND RESERVE..

This is just the tip of what waits for you now and in the future...And you can start today by just calling in the producers and telling them... Enough is Enough; We are Done! Here is how it is going to be and how it is going to happen....!

Your going to role back all local refined fuels prices to this date and amount __?
Any additional moneys you think you are owed you can submit to a special fund of review for readjustment at a later date!
All and each of you are going to commit our gas to the AGIA process or leave!
And, we are all headed for a new society and we want a full array of new technology products constructed now, beginning with:
-- 10 new commercial Hydrogen refeuling stations
-- 600,000 Photovoltaic Solar Panel Kits for immediate residential installations
---5 major Megawatt capabilities Geothermal Projects

---10 small micro Geothermal power projects.
---Major home refueling, water based energies research technology centers set up in every major city community colleges and universities in Alaska....
---Alaska Railroad decaled a special interest project for Hydrogen fueled shuttle bus or carriers on tracks to various rail sites around the State... ..
(look, the list of lomg overdue and wonderful thing to be done is just too long for now!)

We expect to see your same Dubai like loyalty here in Alaska, from all of you... period! Or we will evict you and sue you in a national and world court arena, on live video for the whole world to see....

Paul D. Kendall

907-222-7882
907-884 2424

pauldkendall@yahoo.com

Oh, and by the way,, It is difficult to end in such a way,,,
Surely, you realize the oil companines cannot --impact an economy unless they have something to impact with; like say a work force of several hundred or thousand--
It is my opinion the Oil Companies are going to **smack down the Alaskan Economy!**
Because I am not privy to the inside events and the outside reconstructing of markets i cannot forcast exactly when, but I do smell it in the air by the things they are not doing....
By Alaska having our ENERGY VISION IN PLACE NOW, THE IMPACT SHOULD BE MINIMISED; EVEN PERHAPS AVOIDED AND TURNED TO A VERY SPECIAL PLACE..

AEA NEEDS TO BE RESTRUCTURED AND SUBDIVIDED INTO A SPCECIFIC AREA --- OF OBSERVABLE EXSPECTATIONS, ACTIONS, PRODUCTIONS AND RESULTS ACHIEVMENTS.
1....MY SURFACE THINKING IS **LIMITED TO HYDRO OR WATER RELATED BASED POWER GENERATION PROJECTS ONLY**

2....AND BRING IN CHUGIACH AND THE STATE TO DO OVERSIGHT ON
3...TRANSMISSION AND DISTRIBUTION INTERTIE AND STORAGE ASPECTS..
4....AND YET ANOTHER DEPARTMENT FOR HOME ENERGY NEEDS TECHNOLOGIES
5....AND YET ANOTHER DEPARTMENT FOR HOME TRANSPORTATIONS

PAUL D. KENDALL

FOR IMMEDIATE RELEASE **CONTACT: Gil Cisneros**
August 1, 2008 **Phone: 303-462-1275**
gil@chamberoftheamericas.com

GIL CISNEROS NAMED TO PORTS-TO-PLAINS BOARD OF DIRECTORS

Denver.- Gil Cisneros, Co-Founder and CEO of The Chamber of the Americas (COTA), a nonprofit organization leader in international trade in the Western Hemisphere, has been appointed as member of the Ports-to-Plains Board of Directors.

"It is my pleasure to welcome Gil Cisneros to the Ports-to-Plains Board. Gil's knowledge and expertise in international relations and business development will be a tremendous asset to Ports-to-Plains as we continue to move forward with our initiatives," said Duffy Hinkle, Vice President of Port-to-Plains.

The Ports-to-Plains Trade Corridor, created in 1998, is a planned, multi-modal transportation corridor including a multi-lane divided highway that will facilitate the efficient transportation of goods and services from Mexico, through West Texas, New Mexico, Colorado, and Oklahoma, and ultimately on into Canada and the Pacific Northwest, and area that includes nine states and 38.5 million citizens.

Cisneros will join other 17 distinguished business and community leaders from Colorado, New Mexico, Oklahoma, and Texas who are currently serving as board members.

In addition to his responsibilities with the COTA (founded in 2001), Cisneros is also president of Grupo

Cisneros Internacional, an international consulting firm based in Denver.

Before that, Cisneros was the president of the U.S.-Mexico Chamber of Commerce, Rocky Mountain Region (1993 to 2001). Before that, he was the regional administrator of the United States Small Business Administration, Rocky Mountain Region during seven years. Prior to that, he was community relations' field manager for the Rocky Mountain States at Adolph Coors Company, Golden, Colorado; and served as executive director of the Denver Minority Business Development Center.

The Chamber of the Americas (COTA) is a not-for-profit organization with a simple, profoundly important goal: To help you make the most of your business opportunity in the Americas. Stated more formally, the Chamber's mission is to facilitate commerce and understanding between the businesses and governments of the Western Hemisphere. Subject: TransCanada' AGIA Obligations

By email.

Dear Speaker Harris:

Thank you for your letter earlier today, congratulating TransCanada on receiving legislative approval of the AGIA license. TransCanada is pleased to have reached agreement with the State of Alaska under AGIA. We sincerely appreciate receiving affirmative ratification from both your House and the Senate, and we now look forward to working closely with potential shippers, regulatory authorities and the State of Alaska to make this pipeline a reality.

In your letter you requested clarification regarding my comments in today's Globe and Mail. I offer the following background and clarification:

1. TransCanada has earned certain rights as the State's chosen party under AGIA. Of equal importance, TransCanada has made specific undertakings and assumed significant obligations to the State of Alaska. I am pleased to confirm that TransCanada is committed to fulfilling all its obligations under AGIA in a manner that satisfies the State of Alaska.

2. Attracting shippers is an essential element of any major pipeline project. As described in our AGIA application and in our responses to the legislature, TransCanada intends to vigorously pursue commercial negotiations with the Prudhoe Bay producers to secure their commitments as shippers. There are no more logical shippers for this project than the Prudhoe Bay producers.

3. It is TransCanada's clear intention to reach commercial agreement with the three Prudhoe Bay producers, together with other shippers that may materialize as a result of the open season process. That is the best way for this project to proceed in a speedy and secure manner.

4. It is a common phrase in the energy sector that "nothing goes ahead until Exxon is happy". My wry observation along those lines was not meant as a negative comment on ExxonMobil, nor was it meant to imply that ExxonMobil has any sort of veto on the building of an Alaska gas pipeline. In fact, the reporter and I were discussing the importance of developing commercial arrangements that satisfy all parties, and I observed that its often a challenge to meet all the expectations of all parties.

5. Clearly, neither ExxonMobil nor any other party has a veto over the manner in which the State of Alaska deals with its oil and gas assets.

6. Nonetheless, I do believe a sound commercial arrangement including the Prudhoe Bay producers as shippers is the most logical way to bring this pipeline project forward.

7. TransCanada is aware that the State of Alaska is pursuing resolution of various upstream matters. Those matters are not TransCanada's business, and TransCanada will not be a party to or take a position on any upstream matters.

Speaker Harris, I trust the foregoing clarifications adequately address the concerns raised in your letter of earlier today. Should you require further clarification of TransCanada's position or intentions please contact either Tony Palmer or myself.

Sincerely,

Hal Kvisle, CEO
TransCanada Corporation

Subject: Meet and Greet

Hello Gov. Palin.

I will be arriving in Anchorage Saturday night [8/9] and plan to start work on Monday morning the 11th. I'm in the process of finalizing the details of renting private office space in downtown Anchorage and hope to have that completed soon.

Since we've never met, I would like to come by your office for a couple of minutes to say hi. What I have in mind is just a quick meet and greet, not a big deal, and not to talk about the case either. I just want to introduce myself and meet some of your staff. By then I should have my office location details and contact info ready for you. I appreciate your willingness to cooperate with me, and this informal meeting can serve as a good ice breaker for both of us. Can we meet, say Tuesday 8/12 ? [pick a time].

Also, since my work is expected to take a couple of months, I think it would be a good idea if you could designate someone close to you to be my contact person to handle requests for information, and basically act as mission control between us in the event you are unavailable.

I've heard it's rainy and cool up there, so it will be a welcome relief from our dry and hot weather here in SC.

Regards-

Steve Branchflower

Subject: PR 08-135 Governor Pleased That Obama's Energy Plan Includes Alaska 080408
FOR IMMEDIATE RELEASE **No. 08-135**

Governor Pleased That Obama's Energy Plan Includes Alaska

August 4, 2008, Fairbanks, Alaska - Governor Sarah Palin today responded to the energy plan put forward by the presumptive Democratic nominee for President, Illinois Senator Barack Obama.

"I am pleased to see Senator Obama acknowledge the huge potential Alaska's natural gas reserves represent in terms of clean energy and sound jobs," Governor Palin said. "The steps taken by the Alaska State Legislature this past week demonstrate that we are ready, willing and able to supply the energy our nation needs."

In a speech given in Lansing, Michigan, Senator Obama called for the completion of the Alaska natural gas pipeline, stating, "Over the next five years, we should also lease more of the National Petroleum Reserve in Alaska for oil and gas production. And we should also tap more of our substantial natural gas reserves and work with the Canadian government to finally build the Alaska natural gas pipeline, delivering clean natural gas and creating good jobs in the process."

Governor Palin also acknowledged the Senator's proposal to offer $1,000 rebates to those struggling with the high cost of energy.

"We in Alaska feel that crunch and are taking steps to address it right here at home," Governor Palin said. "This is a tool that must be on the table to buy us time until our long-term energy plans can be put into place. We have already enjoyed the support of Alaska Senator Ted Stevens, and it is gratifying to see Senator Obama get on board."

The Governor did question the means to pay for Obama's proposed rebate — a windfall profits tax on oil companies. In Alaska, the state's resource valuation system, ACES, provides strong incentives for companies to re-invest their profits in new production.

"Windfall profits taxes alone prevent additional investment in domestic production. Without new supplies from American reserves, our dependency and addiction to foreign sources of oil will continue," Governor Palin said.

Governor – I received a call from Charles Adams, Communications Advisor Department for Senator McCain. Mr. Adams was inquiring as to whether or not you would be interested in participating in a National Press Call on Wednesday, 08.06.08. This would be with their National Pool of Reporters. It has very good attendance on calls. It would help the elected official. It would be a total of 15 minutes of your time and would be in regards to Energy. They do these National Press Calls each week. This is tentative at this time depending on your interest to participate. Thanks, Janice

Governor,

Here are your final remarks and event info. I spoke with Julie Kitka again this evening, and she said that all ten speakers will have 5 minutes for a prepared speech. After the last speaker (you) they will have a response time from the speakers to the audience and visa versa. Julie was wondering if you want Todd to sit with you at the U-table? They would have a place-card for him next to you. If you'd let me know, I'll get back to her.

Also, I've included a brief bio on Dr. Walter Sobeloff to remove any confusion. He turns 100 in November, fyi. Please let me know if you have any other question or concerns about tomorrow's event.

Thank you, Governor, and have a great event!

Kate

Dr. Walter Soboleff— Walter Soboleff, a Tlingit Indian from Teneakee Springs, Alaska, was the first Tlingit to serve on the state Board of Education. He has also been on the Board of Directors of Sealaska and Sealaska Heritage Foundation. He received a Doctor of Divinity in 1952 and a Doctor of Humanities from UAF in 1968. He was the first director of the UAF Alaska Native Studies department, and has dedicated his life to Alaska Native education and the preservation of Alaska Native culture.

AFN Roundtable / Captain Cook, Foredeck / 10-11:30 a.m.

Good morning☺. Dr. Sobeloff, thanks so much for your beautiful prayer.

To the many leaders & representatives of AK's First People, to Sen. Stevens, Sen. ih-no-way (Inouye) from Hawaii, to Sen. Murkowski, with us by teleconference, & to all of the distinguished guests who are here – both on stage & in the audience – it is my privilege to speak to you today on the topic of energy & abundance in our beautiful state.

As you've heard other speakers mention, we are in the middle of a massive energy crisis. This is, of course, no news to you. AKns pay the highest gas & fuel prices in the nation, & in rural AK especially, the cost is becoming an impossible burden, making it difficult to hunt, to fish – to subsist. When AKns are paying more to heat their home than they are on their home ***MORTGAGE***, there is something wrong with that. When they have to choose between heating their homes or feeding their families, & when they feel forced to leave their community – leave their heritage – in order to afford fuel, something is wrong.

At a regional energy summit in Kotzebue last week, they talked about the crossroads that we've come to – that we can view this as a crisis or an *opportunity*. I favor the second approach: to take this opportunity to reinvent our energy infrastructure. We can not lose hope or lose sight of the fact that AK is a beautiful & resource-rich land, more than capable of meeting the needs of her people & beyond. It is my hope, & the hope of many AKns, that the energy & fuel crisis we're experiencing here in AK & nation-wide, will spawn creativity, broaden minds, & compel our nation's leaders to reevaluate what is important & necessary. When we ask the question of where our energy will come from now & in the future, I believe that our wealth of resources here at home CAN & MUST be a big part of the answer.

Our state lawmakers made history last Friday when they voted to award TransCanada AK a license to proceed with fieldwork & permitting &, ultimately, a gas pipeline. This is a landmark victory in AK's pursuit of a gasline. And we have Sen. Kookesh to thank for part of that victory! Senator, thank you for your 'yes' vote & your support of AK's future. This gasline will be our state's next economic lifeline & provide training, education, jobs & a **FUTURE** for AK's sons & daughters for years to come. This is good news – but it is a few years away yet.

That's why I proposed energy rebates for families, to use as they see fit. What can we do **NOW** to ease the cost pressure AK's communities are experiencing? Several weeks ago, my administration submitted a plan to the legislature to distribute some of the profits we've received as oil prices have soared – $1,200 to every AKn resident. As an owner state, we can AFFORD to share resource wealth with AKns & to temporarily suspend the state fuel tax. Legislators are currently debating various versions of the plan, & should arrive at a final Energy Rebate Plan by the end of this week.

But AKns want to know how we can become energy *independent*. Our energy problem is a local one, & in need of a local solution. To begin with, we must recognize that AK is complex, every community & region unique. With no cookie cutter solutions, we must harness all our creative energy to meet the needs of our diverse state. Fortunately, we have almost endless possibilities, needing only to be developed. We have the gas pipeline as the most obvious answer, & in the Yukon-Kuskokwim Delta they'd like to see a bullet line using gas from the North Slope to create a rural propane delivery system. Another obvious answer is lifting the ban on ANWR & providing legal and permitting assistance when it comes to off-shore drilling so that we can utilize the vast resources there through proven, sound science & environmentally cautious methods. Until then, in the Southeast, they're looking at capturing biomass energy, & we're well on our way with hydro-electric energy, now working with geothermal & wind; & we have a 5-yr plan to invest $250 million in renewable energy projects around the state.

We'll need to make sure our schools and job training programs are part of the equation, too. A trained and capable workforce could be one of the long term benefits of our response to this energy opportunity we have before us today. As we move forward to develop our wind, hydro, tidal & geothermal energies – our resourcefulness could well help America regain its status as the "innovation nation." The opportunities are out there. And they're more likely to become a reality, thanks to our lawmakers, who in their wisdom have passed landmark

legislation that will allow TransCanada Alaska to proceed with a natural gas pipeline. There's no doubt that we'll become a stronger state as we respond to the energy challenge. And our nation will benefit, too.

Thank you☺ !

Subject: Kvisle quote

There was a quote from Hal Kvisle in the Daily Globe and Mail today saying the project would go forward when Exxon is happy.

It was a poor quote and even worse timing. Legislators are upset and some of our opponents (notably Bob Roses) are trying to stir up trouble.

TC is getting a letter of clarification from Kvisle right now. What we have told legislators is that this isn't really new: everybody is going to have to be happy, including Exxon.

Subject: 08.05.08 AFN Roundtable Final Remarks & Event Info

Importance: High

Governor,

Here are your final remarks and event info. I spoke with Julie Kitka again this evening, and she said that all ten speakers will have 5 minutes for a prepared speech. After the last speaker (you) they will have a response time from the speakers to the audience and visa versa. Julie was wondering if you want Todd to sit with you at the U-table? They would have a place-card for him next to you. If you'd let me know, I'll get back to her.

Also, I've included a brief bio on Dr. Walter Sobeloff to remove any confusion. He turns 100 in November, fyi. Please let me know if you have any other question or concerns about tomorrow's event.

Thank you, Governor, and have a great event!

Kate

Dr. Walter Soboleff— Walter Soboleff, a Tlingit Indian from Teneakee Springs, Alaska, was the first Tlingit to serve on the state Board of Education. He has also been on the Board of Directors of Sealaska and Sealaska Heritage Foundation. He received a Doctor of Divinity in 1952 and a Doctor of Humanities from UAF in 1968. He was the first director of the UAF Alaska Native Studies department, and has dedicated his life to Alaska Native education and the preservation of Alaska Native culture.

AFN Roundtable / Captain Cook, Foredeck / 10-11:30 a.m.

Good morning☺. Dr. Sobeloff, thanks so much for your beautiful prayer. To the many leaders & representatives of AK's First People, to Sen. Stevens, Sen. ih-no-way (Inouye) from Hawaii, to Sen. Murkowski, with us by teleconference, & to all of the distinguished guests who are here – both on stage & in the audience – it is my privilege to speak to you today on the topic of energy & abundance in our beautiful state.

As you've heard other speakers mention, we are in the middle of a massive energy crisis. This is, of course, no news to you. AKns pay the highest gas & fuel prices in the nation, & in rural AK especially, the cost is becoming an impossible burden, making it difficult to hunt, to fish – to subsist. When AKns are paying more to heat their home than they are on their home ***MORTGAGE***, there is something wrong with that. When they have to choose between heating their homes or feeding their families, & when they feel forced to leave their community – leave their heritage – in order to afford fuel, something is wrong.

At a regional energy summit in Kotzebue last week, they talked about the crossroads that we've come to – that we can view this as a crisis or an *opportunity*. I favor the second approach: to take this opportunity to reinvent our energy infrastructure. We can not lose hope or lose sight of the fact that AK is a beautiful & resource-rich land, more than capable of meeting the needs of her people & beyond. It is my hope, & the hope of many AKns, that the energy & fuel crisis we're experiencing here in AK & nation-wide, will spawn creativity, broaden minds, & compel our nation's leaders to reevaluate what is important & necessary. When we ask the question of where our energy will come from now & in the future, I believe that our wealth of resources here at home CAN & MUST be a big part of the answer.

Our state lawmakers made history last Friday when they voted to award TransCanada AK a license to proceed with fieldwork & permitting &, ultimately, a gas pipeline. Governor –

In looking over the scheduling requests that you had listed –

Thursday, August 7 – Metlakatla Events – (Held once a Year). You would have to fly from ANC/KTN via JNU or SEA and then Ferry from KTN to Metlakatla. This would take all day on Thursday and then we would not be able to get you all the way back to ANC until late that evening or Friday morning.

Thursday, August 7 – 3:00 p.m. **Nome** (meeting was changed from Unalakleet). Bering Strait Leadership Team Meeting which will be attended by: Bering Straits Native Corporation; Norton Sound Health Corporation; UAF Northwest Campus; Bering Straits Regional Housing Authority; Kawerak, Inc; Norton sound Economic Development Corporation; Bering Strait School District. **They would like a State Issues Update from the Governor.** Privileged or Personal Material Redacted We have received a request directly from Tim Towarak, President/CEO of the Bering Straits Native Corporation for your attendance and to thank you for your support in their region.

Flights: ANC/NOME: Depart AK Airlines #152 – 11:05 a.m. – Arrive 12:41 p.m.
NOME/ANC: Depart AK Airlines #153 – 9:39 p.m. – Arrive 11:05 p.m.

(Only other flights ANC/NOME: Depart 6:05 a.m. – Arrive 9:09 a.m. and NOME/ANC: Depart 1:26 p.m. – Arrive 4:23 p.m.)

Friday, August 8 – 3:00 p.m. – **Nenana** Bridge Dedication/Ceremonial Bill Signing. The DPS Caravan is available for you and staff. The Caravan could pick you up at the Wasilla Airstrip and deliver you to the Nenana Airstrip. The flight time is approximately 1 hour on the Caravan.

Friday, August 8 – 7:00 p.m. – **Chugiak** Field Dedication –

I know you had mentioned that you would like to do Fairbanks possibly on Thursday, August 7 and then on Friday, August 8 with return back to ANC for Saturday, August 9 Alaska Renewable Energy Fair Speech at 5:00 p.m. You would then return back to Fairbanks on Monday, August 11 and 12. Thanks, Janice

Governor,

I just spoke with Julie Kitka. The event will take place at a U-shaped table with a podium at the end of the 'U.' There will be about 30 seats around the table, with chairs for the audience arranged facing the table. They are now expecting 150 people at the event.

Hello Gov. Palin.

I will be arriving in Anchorage Saturday night [8/9] and plan to start work on Monday morning the 11th. I'm in the process of finalizing the details of renting private office space in downtown Anchorage and hope to have that completed soon.

Since we've never met, I would like to come by your office for a couple of minutes to say hi. What I have in mind is just a quick meet and greet, not a big deal, and not to talk about the case either. I just want to introduce myself and meet some of your staff. By then I should have my office location details and contact info ready for you. I appreciate your willingness to cooperate with me, and this informal meeting can serve as a good ice breaker for both of us. Can we meet, say Tuesday 8/12 ? [pick a time].

Also, since my work is expected to take a couple of months, I think it would be a good idea if you could designate someone close to you to be my contact person to handle requests for information, and basically act as mission control between us in the event you are unavailable.

I've heard it's rainy and cool up there, so it will be a welcome relief from our dry and hot weather here in SC.

Regards-

Steve Branchflower

Subject: Re: Hal

Governor,

Hal Kvisle was intending to restate the same message they've been sending, which is that the Alaska Gasline project will need customers and if they (TC) can attract ExxonMobil (which everyone recognizes is the hardest nut to crack) then all the other gas producers will be more likely to follow. Hal was NOT suggesting TC would not follow-through on their AGIA commitments, nor their work schedule. Nor was he suggesting that the State of Alaska needed to do anything beyond what we've already provided as upstream inducements in AGIA (I.e. Tax fiscal certainty for 10 years, and Royalty Valuation and switching certainty).

Finally, did you see the TransCanada Talking Points I sent you yesterday?

Marty

Subject: Kvisle quote

There was a quote from Hal Kvisle in the Daily Globe and Mail today saying the project would go forward when Exxon is happy.

It was a poor quote and even worse timing. Legislators are upset and some of our opponents (notably Bob Roses) are trying to stir up trouble.

TC is getting a letter of clarification from Kvisle right now. What we have told legislators is that this isn't really new: everybody is going to have to be happy, including Exxon.

Subject: Honoring Past House Managers

Dear Erika,

On Saturday, August 2nd, I gladly attended the reception at the Governor's House for the Alaska's Former First Ladies which was hosted by the First Gentleman, Mr. Palin. Having served as the House Manager and Personal Assistant to then First Lady, Michael Cowper, from November 1987-January 1990 I looked forward to witnessing this historical event at the Executive Mansion as I have always remained fond of my years of service there as well and the historical value of the Governor's House.

Needless to say, I was very disappointed midway through the program when all former House Managers were recognized and honored with the exception of me.

The details of such an event are your responsibility. The House protocol for these types of events, when followed, would show respect to all in attendance who held the House Manager's position, regardless of tenure. There is no excuse for this blatant omission. I live, as I have for over 25 years, in Juneau. You knew well in advance I was planning to attend this event.

I understand that KTOO has filmed this event. I truly hope that that you will be able to correct this omission by editing the KTOO version of the event which will be aired throughout the state.

Please send the photos I left for you to scan to my home address, 4800 Thane Road Juneau, AK 99801.

Regards,

Sharon Lane

Subject: AFN Roundtable - Energy Conference - Tomorrow, Tuesday, 08.05.08 - 10:00 a.m.
Governor – you had marked that you would like to attend the AFN Roundtable Energy Conference that is here in ANC tomorrow, Tuesday, 08.05.08 at the Captain Cook Hotel. The Conference is from 9:00 a.m. – 12:00 p.m. The Senators are arriving at 10:00 a.m. (suggested time for your arrival).

9:00 a.m. – Continental Breakfast
9:30 a.m. – Welcome Remarks: State Senator Albert Kookesh
Morning Session – Roundtable w/Individual comment period
10:00 a.m. – Governor arrives (pending)
10:05 a.m. – Opening Prayer – Dr. Walter Sobeloff
10:10 a.m. – Introduction of Guests:
Honorable Ted Stevens and Mrs. Catherine Stevens
Honorable Daniel Inouye, U.S. Senator for Hawaii and Mrs. Irene Hirano Inouye
Honorable Lisa Murkowski – By Teleconference
Honorable Sara Palin, Governor of Alaska

10:30 a.m. – Remarks by Alaska Governor Sarah Palin - You would be requested to give (5 minute speech) on Energy.

You then could also stay for the roundtable discussion if you would like in regards to: Major Changes in the Wind (What is different today for Native Americans, than last year) and Investing in Our Collective Future (A short discussion on what we can do to participate in the economy to benefit our people in the long run).

12:00 p.m. – Adjournment

Please let me know if you would like confirmed attendance as they would prefer you in person but would also do teleconference if you can not attend in person. Thanks, Janice

Governor,

Here are your remarks and event info. I'm still waiting on feedback for the remarks from several in your Juneau office, so there may be changes yet, as Janice may have mentioned. I've told them I need to get the remarks to you as early this evening as possible. I've reworked the remarks, integrating several comments from Rhonda McBride. I will have Tara print your speech off on cards for you tomorrow morning, as I have jury duty first thing. Yay for civic responsibility☺ Anyway, I'll get updated remarks to you ASAP, and please do not hesitate to let me know if you have any questions or if I can be of any further assistance.

Thank you!

P.S. Senator Inouye's (HI) last name is pronounced "ih-no-way."
